December 4, 1997

TO: Minerals File

FROM: Tom Munson, Reclamation Hydrologist 

RE: Site Inspection, American Stone, Aragonite Mine, M/045/031, Tooele County, Utah

Date of Inspection: 12/4/97  
Time of Inspection: 2:00 p.m.- 3:00 p.m.  
Conditions: Sunny  
Participants: Tom Munson, DOGM

Purpose of Inspection: Reclamation of recent disturbance

The site was inspected and found to be regraded and scarified. The road was defined by berms on either end, hopefully directing people to take the road left in place. There was evidence of seed on the ground and, therefore, the commitments that Lon Thomas made to the Division will be met when the area is revegetated. An inspection will need to be made next year to verify the success of reseeded. Photos were taken to document the site visit.
